

The US Department of Labor (DOL) regulations require the H-1B scholar's wage be compared to all others who are currently employed in the department in the same position classification. This worksheet will be part of the government audit file kept at Emory ISSS (1784 North Decatur Road, Suite 130 | Atlanta, Georgia 30322), so it must be accurate and comprehensive. The H-1B employee's salary must be equal to or higher than the salary of each similarly employed workers. If it is not, provide a detailed justification as to why, based on one or more of the following criteria:

- o Experience (indicate specific number of years)
o Qualifications or educational background
o Position responsibility or function
o Specialized knowledge or research field
o Other legitimate business factors (e.g., professional distinctions, development of a patent, receipt of an international prize, etc.).

Please note that limited grant/department funding, a lower negotiated salary, or market conditions cannot be used to justify paying the H-1B scholar a lower salary.
